WAS PRELLER MURDERED?

Suspicion that He is Scheming for the Insurance on His Life.

ST. LOUIS, June 22.—James F. Brady, an agent of Cook's Tourist Agency of London, who is in this city, has received a letter from the agency instructing him to use every effort to learn whether it was a fact that C. Arthur Preller had been murdered, as reported, and his body placed in a trunk. The letter went far to say that Preller before leaving England had insured his life in Cook's Agency for \$20,000.

The indifference of the relatives of Preller regarding the disposition of his body and their undue anxiety to secure the insurance money have excited the suspicions of the agency that the body was not Preller's. The suspicious are strengthened by a report published in London that Maxwell tried while in Boston to have a body, and that the body was not Preller's. The report is explained at the right time. The agency believes the St. Louis murder to have been a scheme to obtain the insurance on Preller's life.

NEW YORK, June 22.—Mr. Jamieson, American manager for Cook's Tourist Agency, believes that the London letter for denouncing his actual death. Mr. Jamieson says it is only an effort to obtain the insurance money, not to pay a loss which would be a loss.

General Grant's Death. ST. LOUIS, June 22.—General Grant passed another good night, having had only one slight coughing spell. He made his first appearance on the north porch about 12 o'clock.

His first sleep last night, which was brought on by two hours of manipulation, and unusual quantities of morphine, kept him quiet until midnight. When he awoke, however, his throat was stiff and for the greater part of the night he tossed and coughed, requiring the constant attendance of his nurse. A sharp pain, which his rheumatism was the physical precursor, roused him fully, and when it had passed, he lay down, and when he awoke, he found his throat was inflamed and he seemed much refreshed.

A Reported Murder. BAY CITY, MICH., June 22.—There is great excitement here over the reported murder of an old man known as "Dad Randall," in Williams township, nine miles from this city, by his son, Al Randall. Both are old citizens, having lived there over twenty years. The report is that the old man attempted to commit suicide with his own wife.

Unloading the Tonnage. NEW YORK, June 22.—A force of men is now engaged in the work of unloading the Bartholdi statue from the steamer, the French transport, Isere, to Belle's Island. The work of unloading began this morning, and it is expected that it will be completed in a few days.

Cyclone in the Missouri Valley. ST. LOUIS, June 22.—Saturday night's storm extended throughout the entire length of the Missouri Valley. Great damage was done by the wind, which in some places reached the violence of a cyclone, but no lives have been reported lost.

General Grant's Food. CHICAGO, June 22.—A box addressed to General Grant went East last night, which contained a liquid extract of raw beef, which investigation has shown has been the General's principal food for several months.
